Ever-best Encoder spare parts instruction sheet

FISHER & PAYKEL

EVER-BEST ENCODER REWORK FOR SPARE PARTS

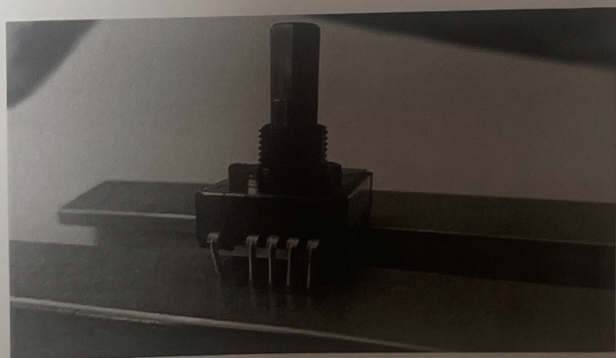

For selected models of the GOEP OB60, OB90, and OB2

In products using the Honeywell encoders shown below the locating feature on the new service kit encoders must be removed. Use flat faced cutters to make a clean cut.

The harness and encoders can then be installed as current, ensure the encoder is well secured while tightening the lightpipe so that it does not spin and damage the harness or become loose in use.
