

PB2012-05-SM-CK-00	APPLICO PARTS BULLETIN
MODELS:	SUK91*, SA9066*, C9*
PARTS:	811650197 – ELECTRONIC CARD
ISSUE:	NEW TYPE CARD WILL NOT FIT ON OLD BRACKET

The electronic card has been updated and is now physically smaller than the original board (the part number has not changed). On models that were produced prior to 23-09-2004 the bracket mounting points for the card measure 57 x 55mm between centres. The new card mounting holes measure 53 x 42mm between centres.

The new card can be fitted onto the old board by inserting two of the 53mm centre standoffs into the 55mm centre holes then marking the position of the two remaining standoffs and drilling two 5mm holes to suit.

New type card.

Old bracket.
